I don't think there'd be any search in my area (414)

My name is Glenda Rodriguez from AU 2651 (magnetic storage and retrieval). I am currently working on a case and because it is claimed so broadly, it could apply maybe to your area. The application is 09/490113 and I would like you to recommend me any class/subs that could apply to your area (the claims are very broad). Thanks in advance.
